THE WORLD'S MARKET NEWS

WALL STREET

New York, N. Y., Nov. 22.—The market closed irregular. Bear selling of the speculative stocks was in reduced volume today, despite various adverse influences. The discouraging tenor of trade reviews and hesitation of the London market had little weight.

Changes for the better in monetary conditions and the waning influence of Mexican affairs created a perceptibly better sentiment but the bulls showed no inclination to take on stocks.

The short interest built up recently gave stability to the market and prices eventually stiffened slightly. The effect of this improvement, however, was nullified by late selling of Union Pacific and Reading.

Bonds were easy.

CHICAGO GRAIN

Chicago, Ill., Nov. 22.—Favorable weather reports in Argentina, where growth is at a critical stage, had a weakening effect today on the price of wheat. There were also prospects of liberal world shipments next week. Commission house buying on resting orders brought about a reaction, but prices again became easy. The opening was a shade to 1-4c lower with a further decline ensuing. On the temporary rally, the market went slightly above last night's level.
